AGENDA

1. Welcome & Introduction– 10'

Cécile Guasch, *DIGIT B2*

2. Why is Law as Code important for BLSI/Digital Ready Policymaking and what it is? – 10'

Cécile Guasch, Alessio Nardin, *DIGIT B2*

3. The future of the Legislation Editing Open Software (LEOS) tool – 10'

Willy Van Puymbroeck, *LEOS team*

4. Which kind of legislative resources can be transformed into law as code? Some LaC implementations, pilots and in production – 40'

- **Introduction:** Law as code at different levels of government, *DIGIT B2* – 5'
- **EU Case:** EU Rail Ontology as building block of the EU mobility data space for rail, Yann Seimandi, DG MOVE & Marina Aguado ERA, Infrabel – 20'
- **Regional Case:** Local Decisions as Linked Open Data in Flanders project, Veronique Volders & Raf Buyle – 15'

6. Panel Discussion – 15'

7. Conclusions and Next steps – 5'

Cécile Guasch, Alessio Nardin, *DIGIT B2*

Welcome and introduction

Cécile Guasch,
DIGIT B2

Who are we?

Better Legislation for Smoother Implementation (BLSI) community

A living and continuously growing multi-disciplinary community on better legislation to share good practices and co-create tools with interoperability in mind around:

- Digital-ready policies
- Legislation and technology
- Streamlined regulatory reporting process in the EU

Digital-ready policymaking

Why is Law as Code important for BLSI/Digital Ready Policymaking and what it is?

Cécile Guasch,
Alessio Nardin,
DIGIT B2

What is digital-ready policymaking?

“**Digital-ready policymaking** is the **process of formulating digital-ready policies and legislation** by considering **digital** aspects from the **start** of the **policy cycle** to ensure that they are ready for the digital age, future-proof and **interoperable**. It also encompasses the use of **innovative methodologies** and **tools** (e.g., AI powered) in the policy design, analysis and implementation process.

”

Source: Better Regulation Tool #28

Digital-ready policymaking components

*How would you position
Law as Code?*

Law as code: Our interpretation

Law as code is the machine-readable representation of legal texts, which can be obtained through different techniques in a manual, semiautomatic and automatic manner.

By leveraging the digital representation of legal resources, multidisciplinary teams can develop digital systems able to interpret legal texts and apply them

Do you agree with this definition?

How do Digital-ready policymaking and Law as Code interact with each other?

Digital-ready drafting for Law as code

In BR Tool #28:

- set out clear rules in the legislative act while keeping those rules future-proof to technical development
- use simple, precise, and concise wording – especially for the parts the implementation of which is likely to be automated
- reuse existing concepts from the policy domain and ensure alignment with those in related policy sectors thus ensuring interoperability .

**This is enabled and supported
by semantics**

European Data Context

Feb 2022, EC announces the establishment of Common European interconnected Data Spaces

Whether the data are private, shared or open, using data from multiple sources requires interoperability at several levels, from identity providers to vocabulary providers.

The common European mobility data space will build upon existing EU and Member States' legislation and infrastructures related to transport data

The railway challenging “data” ecosystem

Data Stories

Queries ready TENtec, DG REGIO, DTLF...

List of queries related to the TEN-T data space

Most of these queries are restricted to the section of line (and its related tracks) that starts in an operational point named Dendermonde and finishes in an operational point named Baasrode-Zuid. Changing the names of the operational points or knowing their URIs or those of the section of line to be requested would allow evaluating these queries in other parts of the knowledge graph.

Query TEN-T 1 - Determine the compliance of tracks with the High Speed Load Model (HSLM) - era:highSpeedLoadModelCompliance, RINF index 1.1.1.1.2.4.2. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 2 - Classification of a line according to the INF TSI - era:lineCategory, RINF index 1.2.1.0.2.2. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 3 - Number of tracks for a section of line. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 4 - Type of contact line systems of the tracks in a section of line. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 5 - Wheel set gauge of the tracks of a section of line. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 6 - Energy supply system associated to the tracks of a section of line. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 7 - ERTMS / ETCS application level of a track, which expresses the possible operating relationships between track and train. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 8 - ETCS baseline installed in the track. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 9 - Location of particular points requiring specific checks due to deviations from gauging. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 10 - Combined transport profile for semi-trailers. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 11 - If ETCS in operation, fill in parameters ETCS Baseline and ETCS Level for tracks. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 12 - GSM-R version installed in the tracks of a section of line. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 13 - Maximum Axle Load (note that this parameter does not exist and we use minAxleLoad instead, which returns currently no values). [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

Query TEN-T 14 - Nominal maximum operational speed on the line as a result of INF, ENE and CCS subsystem characteristics expressed in kilometres/hour. [Query](#). [Execute it \(HTML\)](#). [Execute it \(CSV\)](#)

ERA RINF chatbot

This simple chatbot answers natural languages data questions about the [ERA RINF](#) public data. It uses the [OpenAI GPT-3 davinci](#) model together with the [ERA vocabulary](#) to generate a [SPARQL](#). Then the bot launches the query on the [EU open SPARQL endpoint](#) and returns the results.

Because the complete ontology is too big to send as prompt to GPT, the ontology is first reduced to the classes and properties that are actually in use by the public data.

This application is [opensource](#).

[Click here for some inspiration!](#)

Here are some prompt examples:

- Please give me a list of all operational points
- Please give me a list of distinct manufacturers
- Please give me a list of distinct train detection systems
- Please give me a list of national railway lines. Return a table with uri, label and inCountry properties. Limit to 100 results

please give me a list of all operational points

[Click to get your data answer](#)

SPARQL query generated by GPT:

```
SELECT ?operationalPoint
WHERE {
  ?operationalPoint a <http://data.europa.eu/949/OperationalPoint> .
}
```

Data result:

	operationalPoint
5	http://data.europa.eu/949/functionalInfrastructure/operationalPoints/EELIIVA
6	http://data.europa.eu/949/functionalInfrastructure/operationalPoints/EEPALDI
7	http://data.europa.eu/949/functionalInfrastructure/operationalPoints/EEPAPINIIDU
8	http://data.europa.eu/949/functionalInfrastructure/operationalPoints/EEPARNU

Integrated environment permit

Applicable in Aalter

Topics	Economy and Work, Building and Living, Environment and Energy
Target audience	Other organisation, Company, Citizen
Type	Admission
Product number	19383

The integrated environment permit ('omgevingsvergunning') replaces and combines several permits:

- integrated environment permit for town planning activities (former town planning permit)
- integrated environment permit for land subdivision (former subdivision permit)
- integrated environment permit to operate classified establishments or activities (former environmental permit)
- integrated environment permit for retail activities (former socio-economic authorisation)
- integrated environment permit to change small landscape elements or vegetation (former nature licence)

Product number	19383

Read this page in: [Nederlands \(je-vorm\)](#), [Nederlands \(u-vorm\)](#)

Updated on 12 December 2022

Created on 28 November 2022

In collaboration with Your Europe

This webpage is part of an EU quality network.

Requirements

You always require an integrated environment permit in the Flemish Region if you:

- operate nuisance-causing business activities (Categories 1 and 2)
- subdivide a plot of land (split into several lots to sell at least one of those lots as construction land)
- construct a new dwelling or building.

Other works to and around the dwelling may require a permit or notification or enjoy an exemption.

Procedure

- Apply for the integrated environment permit via the online Environment and Spatial Planning Desk ('Omgevingsloket') (unless submission on paper is permitted).

al

Linked Templates

Create meeting minutes by using **smart templates**. These templates make sure your minutes contain all **the information** needed for transparent decision making.

Once you publish the meeting minutes, this **information automatically becomes available for reuse** in other applications and websites.

Reuse of information

Using open standards in your meeting minutes makes sharing data a piece of cake.

Information from meeting minutes like agenda's, decisions and mandates will automatically become available to citizens, supervising governments and third parties.

Retributiereglement voor het opzoeken, samenstellen en afleveren van vastgoedinformatie aan particulieren en onderzoeken van conformiteitsattesten.

Artikel 5 - Bedrag
Het bedrag van de retributie wordt vastgelegd als volgt:

- vastgoedinformatie: €100 per perceel
- Afgifte conformiteitsattest:
 - woning: €100
 - kamerwoning: €100 verhoogd met €20 per kamer vanaf de 6de kamer, met een max. van € 1 500.

Woningen die ingehuurd worden door een sociaal verhuurkantoor zijn vrijgesteld van deze retributie.

Artikel 6 - Invorderingswijze
De onbetwiste en opeisbare retributie wordt bij niet-betaling ingevorderd conform artikel 177, tweede lid, van het Decreet van 22 december 2017 over het lokaal bestuur. De betwiste en opeisbare retributie wordt bij niet-betaling burgerrechtelijk ingevorderd.

Artikel 7 - Inwerkingtreding
Dit reglement treedt inwerking op 1 januari 2023.

Artikel 8 - Bekendmaking
Dit reglement wordt bekendgemaakt overeenkomstig artikel 285 tot 288 en artikel 330§1 van het Decreet van 22 december 2017 over het lokaal bestuur.

We make it possible to integrate
this information in other applications
to get closer to the citizens of our world.

Gemeenteraad

woensdag, 25 januari 2023

Besluit

Met eenparigheid van stemmen

Artikel 1

Er wordt een retributie geheven van **110,00 EUR** op de aanvragen naar vastgoed of milieu-informatie per perceel.

Een aanvrager dient slechts éénmaal de retributieprij voor een aanvraag te betalen per groep van 5 kadastrale percelen op voorwaarde dat:

- (i) De percelen aangrenzend zijn
- (ii) De percelen binnen éénzelfde gemeentelijke grens liggen
- (iii) Er maximaal op één perceel (een) gebouwenhe(i)d(en) geregistreerd is (zijn)

De retributie is verschuldigd door de aanvrager van de vastgoed of milieu-informatie.

Artikel 2

Er wordt een retributie geheven op de aanvragen van omgevingsvergunningen voor of de meldingen van stedenbouwkundige handelingen en het exploiteren van ingedeelde inrichtingen of activiteiten (IIOA) in toepassing van het Omgevingsvergunningsdecreet.

De retributie wordt als volgt vastgesteld:

- dossiers waarvoor de gemeente vergunningverlenende overheid is:
 - aanvraag eenvoudige procedure voor
 - stedenbouwkundige handelingen of vegetatiewijzigingen of kleinhandelsactiviteiten: **90,00 EUR**
 - verkavelen van gronden of bijstelling van verkaveling: **90,00 EUR**
 - IIOA of gemengd project: **230,00 EUR**
 - aanvraag gewone procedure voor
 - stedenbouwkundige handelingen of vegetatiewijzigingen of kleinhandelsactiviteiten: **110,00 EUR**
 - verkavelen van gronden of bijstelling van verkaveling: **110,00 EUR**
 - IIOA of gemengd project: **340,00 EUR**
 - melding van:
 - stedenbouwkundige handelingen of vegetatiewijzigingen of kleinhandelsactiviteiten: **50,00 EUR**
 - IIOA of gemengd project: **60,00 EUR**
 - mededeling met vraag tot omzetting van milieuvergunning naar permanente omgevingsvergunning: **290,00 EUR**
 - de melding van de overdracht van een vergunning voor een IIOA: **60,00 EUR**
 - de omzetting van een omgevingsvergunning na klasseverhoging door wijziging van de indelingslijst: **180,00 EUR**
 - het aanvragen van een percelensplitsing: **35,00 EUR** per aanvraag
 - voor een verzoek tot bijstelling van de milieuvoorwaarden: **60,00 EUR**
 - aanvraag van een planologisch attest: **110,00 EUR**
 - aanvraag van een stedenbouwkundig attest: **60,00 EUR**

Panel discussion

Which are the necessary ingredients to develop LaC?

Is the EU-level a specific case?

What role could be played at EU level to make sure that Law as Code could be developed smoothly at the EU, MS, Regional and Local level?
